

Summary:

Web Developer with ~9 years of experience with proficiency in full-stack development. Experienced in leading a small team of developers and driving customer centric design and a healthy development culture. I have experience working with many growth-stage and established startups. I'm experienced in developing and maintaining scalable, extensible and reliable products. I believe myself to be highly analytical, empathetic and a curious team player. I love to teach and learn something everyday.

Skills:

Ruby	Javascript	Git
Ruby on Rails	NodeJS	REST API Design
PostgreSQL	React	Microservices
RSpec	TDD/BDD	Docker
