

# MANU DWIVEDI

Bengaluru, India / Remote | [manu29.d@gmail.com](mailto:manu29.d@gmail.com) | +91-8452866624 | [linkedin.com/in/manu29d](https://www.linkedin.com/in/manu29d) | [github.com/manu29d](https://github.com/manu29d)

---

## PROFESSIONAL SUMMARY

**Polyglot Engineering Leader** with 12+ years of full-stack engineering and technical management experience, including 4+ years directly leading high-performing, cross-time-zone development teams. Deep architectural and operational expertise spanning **Ruby on Rails, Java Spring Boot, Python FastAPI, Node.js, React, Docker, and Cloud Infrastructure (Azure/AWS)**. Proven track record of architecting enterprise-grade platforms, orchestrating 24+ production AI agents, driving ISO/SOC II compliance, and modernizing legacy monoliths while scaling developer velocity across B2B SaaS, fintech, treasury, and logistics domains.

---

## CORE COMPETENCIES

- **Engineering Leadership:** Multi-Time-Zone Remote Leadership, Team Restructuring, Agile/Scrum, Hiring & Performance Management, Technical Mentorship, Stakeholder Management
  - **Architecture & Delivery:** System Architecture, Microservices, Legacy System Modernization, API Design, Developer Velocity & Productivity Pipelines, ISO & SOC II Compliance
  - **AI & Workflow Integration:** Production LLM/RAG Agents, AI-Assisted Development (Claude Code, Cursor, Copilot), Cloud Cost Governance, Cost Optimization
  - **Domain Expertise:** B2B SaaS, Fintech & Treasury Systems, E-Commerce, HealthTech, Supply Chain & Logistics
- 

## PROFESSIONAL EXPERIENCE

**Engineering Manager** | Zenalyst AI | June 2026 – Present

- **Team & Operations Leadership:** Lead and mentor a 15-engineer organization structured across 5 core enterprise product lines (Zenbank, Zenforce, Zentrips, Zenlegal, and ZenProcur). Oversee hiring, performance evaluations, and architectural reviews.
- **Production AI Frameworks:** Architected a custom multi-agent AI framework for treasury software, orchestrating **24+ AI agents in production** to automate complex financial operations and data workflows.
- **Security & Compliance Architecture:** Led the architectural migration of Zenbank to guarantee full ISO compliance and SOC II readiness across multi-tenant banking infrastructure.
- **AI-First Culture & Tooling:** Spearheaded company-wide engineering culture transition to Claude Code-assisted development; created internal monitoring tools (Claude usage trackers, automated hiring pipeline evaluators) that accelerated sprint velocity.
- **Cloud FinOps & Infrastructure:** Established cloud governance on Azure, performing root-cause analysis (RCA) on runaway services to prevent billing spikes and optimizing microservice compute allocations.
- **Tech Stack:** Java Spring Boot, Python FastAPI, LLMs/AI Agents, Azure, Docker, GitHub Actions CI/CD.

**Engineering Team Lead** | Easyship | Feb 2025 – Nov 2025

- **Technical Strategy & Execution:** Led the Courier Integrations squad managing technical strategy and feature delivery for a high-throughput Ruby on Rails monolith serving global e-commerce logistics.
- **Cross-Functional Architecture:** Bridged product requirements and technical feasibility for the strategic 'Supership' initiative, defining end-to-end user flows and system architecture across Angular and Rails.
- **Process Modernization:** Facilitated core Agile/Scrum ceremonies, improving team velocity, sprint predictability, and career progression pathways for direct reports.
- **Tech Stack:** Ruby on Rails, Angular, PostgreSQL, RSpec, Git.

**Independent Engineering Consultant / Senior Tech Lead (Contract)** | Multiple Clients / Remote | May 2022 – Nov 2023

- **Cross-Time-Zone Technical Leadership:** Executed rapid-onboarding contract engagements as Team Lead and Senior Engineer across 6 global time zones for platforms including **SimplePay, Curve Tomorrow (Headcheck), Ordway, and Turing**.
- **Agile Governance & Architecture:** Certified Scrum Master (CSM); drove sprint execution, technical solutioning, and feature delivery across Rails, React, Firebase, GCP, and Node.js codebases.
- **Global Talent Matching:** Engineered backend matching algorithms and high-concurrency microservices for Turing's developer platform serving distributed enterprise clients.
- **Tech Stack:** Ruby on Rails, Node.js, React, JavaScript, Firebase, GCP, MySQL, Nginx.

## Lead Software Engineer / Engineering Lead | PlanSource India | April 2021 – May 2022

- **Multi-Team Scale:** Managed 4 engineering squads (Core Product, Technical Integrity, and Bug Backlog), increasing engineering throughput and team capacity by **40%**.
- **Database & Compliance Infrastructure:** Executed database GDPR compliance readiness, implementing data obfuscation, schema migration pipelines, and anonymization across lower environments.
- **Quality & Delivery Optimization:** Onboarded and mentored 10 junior developers; personally spearheaded bug-fix campaigns resolving **80+ critical backlogged issues** in a single quarter.
- **CI/CD & DevOps Modernization:** Designed solutions across a complex Rails/React architecture while optimizing CI/CD deployment pipelines via Jenkins, Samson, and GitLab CI.
- **Tech Stack:** Ruby on Rails, React, AWS, GitLab CI, Jenkins, Samson, PostgreSQL.

## SDE-II Full Stack Engineer | Junglee Games | March 2020 – Jan 2021

- **Microservices Re-Architecture:** Partnered with Chief Architect and Engineering Manager on the core re-architecture and performance optimization team for high-concurrency gaming infrastructure.
- **Edge Routing POC:** Designed and benchmarked a high-throughput edge router proof-of-concept using Node.js and Express-compatible middleware, driving performance benchmarking and load testing.
- **Tech Stack:** Java Spring Boot, Microservices, Node.js, Express, Docker, Nginx, AWS.

## Senior Software Engineer / Tech Lead (Contract) | TapChief & Traco Tech | May 2019 – Dec 2019

- **Data Science Infrastructure:** Built Python (Flask/Django) data pipelines to construct skill/technology knowledge graphs for TapChief (acquired by upGrad).
- **Product Innovation & Automation:** Built automated customer support integrations via WhatsApp API for Traco Tech's supply chain SaaS platform; built automated deployment pipelines in Git.
- **Tech Stack:** Python (Flask, Django), React, Ruby on Rails, Git.

## Senior Software Engineer / Founding Engineer (India) | Curve Tomorrow | March 2017 – April 2019

- **0-to-1 Engineering Leadership:** First engineer hired in India; established engineering standards, remote culture, and delivery practices across 4 time zones and 3 continents.
- **Architectural Standard:** Architected baseline Rails API platform utilized across all company product verticals; built Auslan Connect+ used by DSQ and DeafConnect Australia.
- **Cost & Performance Optimization:** Redesigned Google Maps API geospatial querying algorithms, **saving \$250,000 annually** in API expenditure; reduced CI build times by **60%** via Dockerization.
- **Tech Stack:** Ruby on Rails, Angular, React, PostgreSQL, Docker, CircleCI, GitHub CI/CD, RSpec, Selenium.

## Full-Stack Software Engineer (Early Career & Consulting) | Paintcollar, 3LOQ, Talentica, Kreatio | June 2013 – Nov 2016

- **Paintcollar (Founding Engineer):** Architected and launched v1 & v2 e-commerce platforms using Node.js, Express, Angular, and MongoDB.
- **3LOQ:** Built real-time cash flow visualization dashboards for mid-day meal programs using D3.js, CitusDB PostgreSQL clusters, Talend, and Ganglia.
- **Talentica Software:** Engineered GIS/Leaflet.js mapping features for HomeUnion and core ticketing/auth modules for Evvnt.
- **Kreatio Software:** Executed legacy monolith migration from **Rails 2 to Rails 4**; single-handedly built digital school CRM vertical and trained 2 junior engineers.

## TECHNICAL SKILLS

- **Programming Languages:** Ruby, Java, Python, JavaScript, TypeScript, SQL, HTML/CSS
- **Backend Frameworks:** Ruby on Rails (v2–v7), Java Spring Boot, Python (FastAPI, Django, Flask), Node.js, Express
- **Frontend Frameworks:** React, Angular, D3.js, Backbone.js, Bootstrap, jQuery
- **Databases & Data Storage:** PostgreSQL, CitusDB, MySQL, MongoDB, Redis
- **DevOps, Cloud & Infrastructure:** Azure, AWS, Docker, GitHub Actions, Jenkins, GitLab CI, CircleCI, Nginx, Git, Linux
- **AI & Developer Productivity:** LLM APIs, Custom AI Agents (RAG), Claude Code, GitHub Copilot, Cursor

## EDUCATION & CERTIFICATIONS

- **Bachelor of Technology (B.Tech)** – National Institute of Technology (NIT), Tiruchirappalli (2009 – 2013)
- **Certified Scrum Master (CSM)** – Scrum Alliance (2023)
- **Development on AWS** – Certified Course (2021)
